

Bliss Creations

You might not be able to tell, but we're in love with destination weddings. That's why Bliss Creations is definitely one of our favourites. If you want to soak in the summer sun in Hawaii or explore Fiji's mysteries, Bliss Creations can help you plan your wedding in over fifteen exotic locations worldwide. They clearly have a lot of experience working with different types of weddings, whether they're dreamy romantic ones or thrill seeking adventures, but what is most impressive is their in-depth knowledge of their destinations and director Sonya Yeung's decade of experience.
